Summary

I am a highly motivated web developer with a strong foundation in computer science and hands-on experience in both freelance and professional settings. I hold a BS in Computer Science from Comsats University, where I honed my skills in various programming languages and web technologies.

During my internship at Ztech Developers in Bahria Town, Lahore, I gained practical experience in web development, working on real-world projects that enhanced my technical and problem-solving abilities. My role involved collaborating with a team of developers to design, develop, and maintain web applications, ensuring high performance and responsiveness.

I am also certified in Google Ads Search and hold three additional Google certifications, which demonstrate my expertise in digital marketing and online advertising. These certifications have equipped me with the knowledge to effectively manage and optimize ad campaigns, driving targeted traffic and achieving business goals.

In addition to my academic and professional experience, I am an active freelancer on Fiverr and Upwork, where I offer my web development services to clients worldwide. My freelance work has allowed me to tackle diverse projects, adapt to different client requirements, and consistently deliver high-quality results.

With a solid educational background, valuable internship experience, recognized certifications, and a successful freelance career, I am well-prepared to contribute to any web development team and drive projects to success. If you are looking for a dedicated and skilled web developer to bring your ideas to life, please feel free to reach out. Let's work together to create something exceptional!

Experience

ZTech

Website Developer

July 2024 - Present (1 month)

Lahore, Punjab, Pakistan

Ztech Developers Experience

I am currently working as a web developer at Ztech Developers, where I design, develop, and maintain dynamic web applications. My responsibilities include creating responsive and user-friendly interfaces, optimizing website performance, and ensuring cross-browser compatibility. I work closely with a team of developers and designers to implement innovative solutions that meet client requirements. This role has allowed me to continuously improve my technical skills and stay updated with the latest industry trends and best practices.

Fiverr

Web Developer

- July 2024

Corvit Networks

Website Developer

July 2023 - September 2023 (3 months)

Sahiwal Division, Punjab, Pakistan

I worked as a web developer at Corvit Institute, where I contributed to the development and maintenance of their educational platforms. My role involved designing and implementing user-friendly web applications, optimizing website performance, and ensuring a seamless user experience. I collaborated with a team of developers to integrate new features, troubleshoot issues, and enhance the overall functionality of the institute's digital presence. This experience allowed me to apply my technical skills in a dynamic environment and further refine my problem-solving abilities.

Education

COMSATS University Islamabad

Bachelor's degree, Computer Science · (July 2022 - July 2026)
